## Ide förslag

Models/site: Annontation- Kolla upp hur Site Model så alla förstår

application/controllers-MalakiController

application/entities- Malaki

application/repositories-MalakiRepository

frontend- html + css

Add ROLE_BAN

FrontEnd Profile Sida

feature: POST - localhost:8080/{user_name}/{site_name}/edit

feature: Logged Out - Default Main page - GET: localhost:8080/default/main/

```
<dependency>
<groupId>org.springframework.boot</groupId> <artifactId>spring-boot-starter-thymeleaf</artifactId>
</dependency>
```

Feature: Logged In - Admin - Upload to database - POST: Logga

Feature: Logged In - Admin - Upload to database - POST: Wallpaper

Feature: Logged In - Admin Main page - GET: localhost:8080/{admin}/main/

Feature: Logged In - Admin - Create Page - POST: {siteName, title, Description, Logga, Wallpaper, ColorTheme, Font }

Feature: Logged In - Admin - Page - GET: localhost:8080/{admin}/main/{pagename}

Feature: Logged In/out - User- Page - GET: localhost:8080/{admin}/main/{pagename}

Feature: Logged In - Admin - Page/Edit - GET: localhost:8080/{admin}/main/{pagename}/edit

Feature: Logged In - Admin/User Creator - Page/Article/Edit - GET: localhost:8080/{admin}/main/{pagename}/{articleName}/edit

Feature: Logged In - Admin/User Creator - Page/Article/Edit - POST: localhost:8080/{admin}/main/{pagename}/{articleName}/edit

Feature: Logged In - Admin/User Creator - Page/Article - GET: localhost:8080/{admin}/main/{pagename}

Feature: Logged In/out - User-

Page/Article - GET:
localhost:8080/{admin}
/main/{pagename}

FrontEnd: Logged Out - Default Main page

FrontEnd: Logged In - User Main page

FrontEnd: Logged In - Admin - Page/Edit

FrontEnd: Logged In - Admin - Page

FrontEnd: Logged In/out - User- Page

FrontEnd: Logged In - Admin/User Creator - Page/Article/Edit

FrontEnd: Logged In - Admin/User Creator - Page/Article

FrontEnd: Logged In/out - User- Page/Article

## Att göra

Database structure
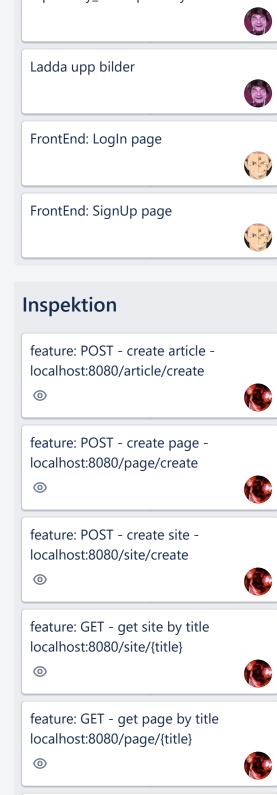

Registrera användare

Skapa Artikler

🔔 2

Skapa pages

≡

Security - den som arbetar med det

Sercurity- den som arbetar med det
får summera sin class function

Skapa menyer

FrontEnd: Logged In - Admin Main
page

models_site

repository_SiteRepository

Ladda upp bilder

FrontEnd: LogIn page

FrontEnd: SignUp page

## Inspektion

feature: POST - create article - localhost:8080/article/create

feature: POST - create page - localhost:8080/page/create

feature: POST - create site - localhost:8080/site/create

feature: GET - get site by title localhost:8080/site/{title}

feature: GET - get page by title localhost:8080/page/{title}

feature: GET - get article by title
localhost:8080/article/{title}

feature: GET - get site by username -
localhost:8080/site/{username}

feature: GET - get article by username
- localhost:8080/article/{username}

feature: GET - get page by username -
localhost:8080/page/{username}

feature: PUT - edit article by article
title - localhost:8080/article/edit

feature: PUT - edit site by site title -
localhost:8080/site/edit

feature: PUT - edit page by page title -
localhost:8080/page/edit

feature: DELETE- delete article by
article title - localhost:8080/article
/{title}

feature: DELETE- delete site by site title
- localhost:8080/site/{title}

localhost:8080/site/{title}

feature: DELETE- delete page by page title - localhost:8080/page/{title}

Skapa site

feature: GET all pages - localhost:8080/page

feature: GET all articles- localhost:8080/article

feature: GET all sites - localhost:8080/site
